Gail sent her latest and greatest, but still had a few questions that Alexas and I have answered today, so I think we will be in good shape today. I need to take another look at the TSD to see how much still needs to be done. Victoria helped out a little on Friday with the TSD and sent me the latest. I'm hoping if I can get the FR notice posted to SharePoint this morning, Stuart and I could tag team and get the TSD posted tomorrow. I think we could probably cancel today's meeting, unless other folks want to meet.

Thanks,

Claudia

Hi Claudia,

Thanks for the updates. Let me know if I need to follow up with Gail, or if you have what you need. Do you need help on the TSD, or will you and Stuart be able to pull it together? Should we have the FIP meeting this afternoon or cancel it? Seems like we do not need to meet, but let me know if there is a need.

Thanks,

Dee

Dee,

Checking out at 4:30 pm.

1.50 hrs TOA used 9:45 – 11:15 am

The master U&O FIP draft FR notice is in pretty good shape, though I am waiting for some updates on the air quality analysis promised from Gail, who had yet to end it before my quitting time. I will load the FR notice to the SharePoint site on Monday morning.

The TSD is another story. I was under the impression that Stuart had gotten a lot further than he did. There's still a lot of remnant from the FBIR FIP, so it still needs quite a bit of work. I'd like to hold off on posting that document to the SharePoint site until I or we can clean it up quite a bit more.

Thanks,

Claudia

Dee,

Checking in at 8:00 am.

U&O FIP – finishing touches on draft FR notice and TSD, then post to SharePoint for internal Regional and HQ review

Address any comments from ORC on Crossfire Bonds Gravel Pit Final TMNSR if they come – if not, can you follow up with Elyana on Monday to see who has been reassigned that permit review?

Call desk phone or email if you need anything.

Thanks,

Claudia
